List of Tables

No. of Schools by Type, 2002 – 2005.....	5
Average Number of Pupils, Average Number of Teachers at Each School Type, 2005.	5
Primary Enrolments by Class Level and Gender, 2002 – 2005.....	6
Junior Secondary Enrolments by Class Level and Gender, 2002 – 2005.	6
Senior Secondary Enrolments by Class Level and Gender, 2002 – 2005.....	6
Number of Teachers by School Type and Gender, 2002 – 2005.....	9
Gross Enrolment Ratio – Early Childhood Development Programs by Gender, 2003 – 2005.	12
District North Percentage of New Entrants into Primary School who have attended Early Childhood Education Programs, by Gender, 2002 – 2005.....	13
District Central Percentage of New Entrants into Primary School who have attended Early Childhood Education Programs, by Gender, 2002 – 2005.....	13
District South Percentage of New Entrants into Primary School who have attended Early Childhood Education Programs, by Gender, 2002 – 2005.....	13
Linnix District Percentage of New Entrants into Primary School who have attended Early Childhood Education Programs, by Gender, 2002 – 2005.....	13
National Average Percentage of New Entrants into Primary School who have attended Early Childhood Education Programs, by Gender, 2002 – 2005.....	13
National Average Percentage of New Entrants into Primary School who have attended Early Childhood Education Programs, by Gender, 2002 – 2005.....	14
GIR and NIR by Gender, 2002 – 2005.	15
GER and NER for Primary Pupils by Gender, 2002 – 2005.	16
Gender Parity Index for Primary GER and NER, 2002 – 2005.....	16
GER and NER for Junior Secondary Students by Gender, 2002 – 2005.....	17
Chart of GER and NER for Junior Secondary Students, 2002 – 2005.....	17
Gender Parity Index for Junior Secondary GER and NER, 2002 – 2005.....	17
Chart of GPI Changes in Junior Secondary GER and NER, 2002 – 2005.....	17
GER and NER for Senior Secondary Students by Gender, 2002 – 2005.	17
Chart of GER and NER for Senior Secondary Students, 2002 – 2005.	17
Gender Parity Index for Senior Secondary GER and NER, 2002 – 2005.....	18
Expenditure on Primary, Junior Secondary and Senior Secondary Education as Percentage of Gross National Product, 2002 – 2004.....	19
Expenditure on Primary, Junior Secondary and Senior Secondary Education as Percentage of Gross National Product per Capita, 2002 – 2004.....	19
Expenditure by Education Sector as a Percentage of the Total MEYS budget.....	20
Percentage of Qualified and Certified Teachers by School Type, 2002 – 2005.	21
Percentage of Qualified Teachers by Gender (all school types) by Gender, 2004 – 2005.....	21
Percentage of Certified Teachers by Gender (all school types) by Gender, 2004 – 2005.....	21
Pupil Teacher Ratio by School Type, 2002 – 2005.	22
Primary School Repetition Rates by Gender, 2004 – 2005.	23
Secondary School Repetition Rates by Gender, 2004 – 2005.	23
Trend in Repetition Rates by Class Level, 2003 – 2005.....	23
District North Primary School Enrolments by Gender and Island, 2002 – 2005.	24
Makin, 2005 Primary School Enrolments by Level, Age and Gender.	25
Butaritari, 2005 Primary School Enrolments by Level, Age and Gender.	25
Marakei, 2005 Primary School Enrolments by Level, Age and Gender.	25
Abaiang, 2005 Primary School Enrolments by Level, Age and Gender.....	26
North Tarawa, 2005 Primary School Enrolments by Level, Age and Gender.....	26
South Tarawa, 2005 Primary School Enrolments by Level, Age and Gender.....	26
Banaba, 2005 Primary School Enrolments by Level, Age and Gender.	27

Foreword by the Permanent Secretary

I would like to start by expressing my gratitude for all Primary Head teachers, Junior Secondary Principals and Senior Secondary Principals for taking the time in providing us with valuable data about their schools.

Special thanks go to Ministry of Finance and Economic Development for providing teacher's payroll data and finance data for Education and to Preschool head teachers in providing data about their preschool through Primary head teachers.

Without these data this Digest would never have been completed. The accurate and timely data has provided useful information about the Education system in Kiribati which has assisted greatly in planning for 2006. This information has also been disseminated to a wider audience interested in the development of our Education system.

The 2005 Digest was produced under the KEMIS project funded by AusAID and implemented by UNIQUEST. It includes for the first time a full report on Education for All indicators. It also includes finance data about Education as well as other details in a time series in response to the demand by our partners in the development of Education in Kiribati.

All the information provided in this Digest and more are available at the Statistics and Project Unit at MEYS.

If you need any further details about our Education system do not hesitate to contact MEYS on phone number 28091.

Once again I thank everybody for making the publication of data possible and I look forward to your combined cooperation in providing responses to future Annual School Surveys.

Thank you,

Reina Timau

Executive Summary

Section One: National Summary Statistics

Section One provides an overview of the education system in Kiribati. It presents statistics for each school type at the national level, as well as national summary statistics about Kiribati students and teachers.

Section Two: Report on the UNESCO Education For All (EFA) Indicators

Kiribati is committed to the UNESCO Education For All (EFA) Framework. Section two provides reports for the current year against the EFA indicators of access, quality and efficiency in education service delivery.

Section Three: Primary Schools Report

Section three provides further detail about the Primary Schools of Kiribati and their students, teachers and infrastructure. The information in this section is displayed by District, Island and individual school.

Section Four: Junior Secondary Schools Report

Section four provides further detail about the Junior Secondary Schools of Kiribati and their students, teachers and infrastructure. The information in this section is displayed by District and Island.

Section Five: Senior Secondary Schools Report

Section five provides further detail about the Senior Secondary Schools of Kiribati and their students, teachers and infrastructure. The information in this section is displayed by District and Island.

A Note about the 2005 Statistics Digest

Due to data collection problems in the Linnix District accurate survey data for the schools of the District could not be obtained for 2005. Figures for the Linnix District presented in this digest are therefore estimates, based on known data from previous years. A detailed presentation of the estimated figures used appears in Sections Three, Four and Five of the Digest. The figures shown in these sections have also been used wherever national totals are calculated.

The MEYS Annual School Survey

Each year the Ministry of Education, Youth and Sports surveys the schools of Kiribati to gather data about the pupils, teachers, facilities, grounds and resources at each school. Additional data is also collected from the National Statistics Office (population data and projections) and the Ministry of Finance (financial and budget figures).

The Ministry of Education, Youth and Sports is grateful to School Head Teachers for providing school data through survey forms completed each year. These data are used by the Ministry of Education for the purposes of planning and monitoring the effectiveness of education sector development programmes, as well as day-to-day operational management of the education sector.

School survey data once received at MEYS is collated and analysed using the Kiribati Education Management Information System (KEMIS). KEMIS is a rich database of information about the schools, students and teachers of the Kiribati education system. If you would like more information about the Kiribati education system, or more detailed information about an aspect of the system, please contact the Permanent Secretary's office at the Ministry of Education, Youth and Sport.

Section One: National Summary Statistics

Our Schools

There are four types of schools operating in the formal education system of Kiribati: Primary Schools (PS), Junior Secondary Schools (JSS), Combined Junior and Senior Secondary Schools (CS), and Senior Secondary Schools (SS).

Currently formal education commences in Primary schools at Class One, for children aged six years. Primary schooling continues for six years, to Class Six.

Secondary education follows after Primary schooling and continues for three (to Form 3), six (to Form 6), or, for a small number, seven years (to Form 7). The purpose of secondary education is to expand knowledge of subjects already studied at primary school including literature, science, mathematics, social studies, commerce and other subjects essential for physical and intellectual development and to prepare students for specialised skills training. In the Secondary school system, there are 3 categories of schools:

Junior Secondary Schools: This is a continuation of free education from Primary schools and students are promoted automatically into these schools. Each island has its own JSS which is run by the Government. The Universal Junior Secondary Schooling program initially started in 1998 with four schools established on different islands. By 2002 all islands had one JSS and Primary students on each island are absorbed into that school system. JSS starts from Form One and completes at Form Three. At the end of Form Three students have to sit for exams in order to get places at much higher forms. Since 2002 to date, there are 24 well established JSS in Kiribati.

Senior Secondary Schools: With the increase in number of JSS established, Senior Secondary Schools emerged. As students from Primary were slowly being absorbed into JSS, Secondary Schools which used to have Form One to Six or even Seven slowly started phasing out Form One to Three. This year there are 15 registered Senior Secondary Schools in Kiribati, starting from Form Four to either Form Six or Seven (two of these were registered after the school survey process and so data relating to these schools is not presented in this digest). Three of these are run by Government and twelve are operated by Churches.

Combined Junior/Senior Secondary Schools: These are schools which still have students at lower levels of Secondary as well as higher forms. There are only two schools of such type and both are run by Churches. Despite the fact that they are church owned, their Junior Secondary subjects particularly at Form Three are still controlled by Government as all the other Junior Secondary School subjects are. However, these are still registered as Senior Secondary Schools even though they have aspects of a Junior Secondary School.

Junior Secondary Education

Entry into junior secondary school is automatic, with students admitted to Form 1 after completing their class six of Primary. The official entry age for Form 1 is 12 years. All students enrolled in Form 1 study the same curriculum for the first 3 years of secondary school in preparation to sit the Form 3 Examination.

Section 2: Education For All Indicators

EFA 1: Gross Enrollment Ratio – Early Childhood Education.

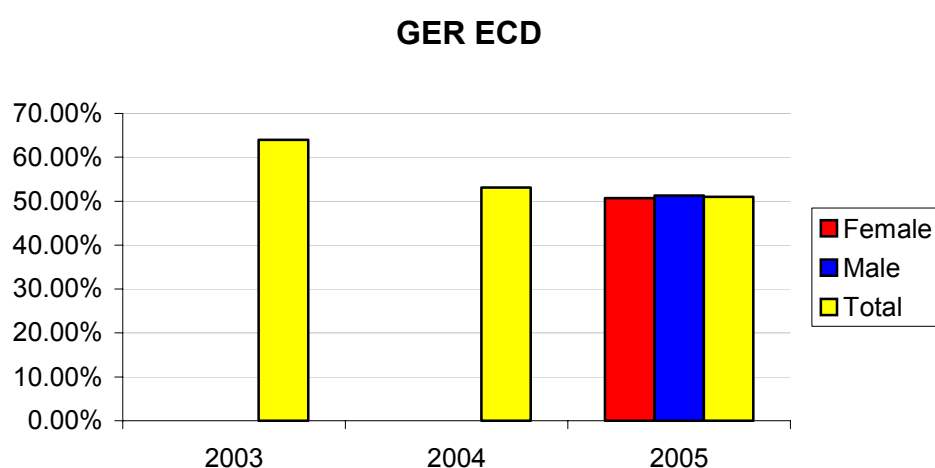

GPI: Gender Parity Index. The GPI shown in each column is the ratio of the value for females over the value for males. A GPI of 1 indicates equal values for females and males. GPI less than 1 indicates the value for females is less than the value for males.

Population data used in this report has been supplied by the National Statistics Office. These are projections derived from the 2000 Census data.

Gross Enrolment Ratio – Early Childhood Development Programs by Gender, 2003 – 2005.

EFA 3: Gross Intake Rate

The Gross Intake Rate (GIR) gives the number of new entrants into class one of Primary school, regardless of age, expressed as a percentage of the total population of official primary school entry-aged children (6 year olds).

This indicator measures the extent to which I-Kiribati children are accessing Primary school at Class One.

EFA 4: Net Intake Rate

The Net Intake Rate (NIR) shows the number of new entrants into class one primary who are of the official primary school entry age, expressed as a percentage of the total population of official primary school entry-aged children. This indicator measures the percentage of children who start school at the official primary school start age (six years old).

Section 3: Primary Schools

Enrolments

The enrolment data presented in this section was reported to MEYS by Primary School Head Teachers through the Annual School Surveys. Enrolment data for District North, District Central and District South are for the current year. Due to difficulties in obtaining surveys from Linnix District in 2005, enrolment data for Linnix District Primary Schools is made up of current year data, where available, and estimated enrolment data based on the 2004 School Survey reports where current year data was unavailable.

Population Projections Used In 2005 Statistics Digest

Some indicators presented in this digest require base population data in order to be calculated. The following table shows the population figures that have been used to perform these calculations in 2005. These figures are projected population estimates produced by Education Statistician Mr Michael Ryan, based on the actual population figures gathered through the 2000 Kiribati National Population Census. For full details of the assumptions used in calculating these projections, please contact the Ministry of Education, Youth and Sports Statistics Unit.

National Projected Population Data for 0–25 Year Olds, 2005

Age	Female	Male	Total
0	1518	1548	3066
